Instructions Facilities Library And Laboratory

Library

A well stocked Library is the Back bone of any Institution. The Library of the College Comprises of a spacious well furnished, illuminated hall with adequate seating capacity for all the students.

At present the library has an affluent collections of 3221 books as well as Educational Journals, also the library has a wealthy collection of more than 15 Periodicals more than 5 news paper are subscribed to the library like Times Of India, The Hindu, Economic Times, Employment News ,Business Line we also have a separate reading room for the students in order to emphasize upon the reading and including the habit of reading Journals and other Periodicals.

Books are issued to all students each students can taken only 2 books, Books are issued for 15 days.

Laboratory

Science is the systematic study of knowledge and science should not be taught without instructional materials and experimentation.

We have a well equipped science materials needed for secondary school teachers, we have chemicals & chemistry apparatus to teach & experiment in chemistry .In Physics we have simple machines tuning forks DC Motors Dc Dynamo Ac motors Electricity apparatus like Galvanometer, Ammeter, Voltmeter, Wires prisms, Glass slabs convex and Concave lenses magnets Sprit lamps etc.,,,

In Biology we have various specimens Models of Human Heart ,Eye, Ear, Kidney ,Nose Brain, Human Skeleton and charts ,Microscope.

We have good facility to conduct experiments to all the student teachers.

Laboratory Materials

Ac Dynamo, DC Dynamo, Dc motor, Ammeter, Voltmeter, Galvanometer, Thermometer, Prisms, Ohm's law expt, Stop clock, weighing box, Physical Balance, Simple pendulum, Charts of Scientists, Chemicals, Sprit lamp, Test tubes, Glass beaker, Round bottomed Flasks. Chemical Balance, Burettes, Periodic table chart etc...
